

LEGEND

01 Pedestrian Entries - Designated access points for pedestrians, featuring signage and art markers to indicate arrival locations. These entryways will connect with potential future footpath networks.

02 Junior Skate Plaza - Smaller skate offering, designed to complement the existing skate park. Providing a different experience with urban skate elements like grind rails and walls, catering to younger skaters looking to develop their skills. Shady seating areas are included to offer spaces for socialising and gathering.

03 Existing Skate Park - To remain, enhanced with new park features to complement its use and improve the overall experience for skaters.

04 Main Movement Footpath - 2-meter wide footpath that loops around the park, connecting the various areas and activities. Designed for both pedestrians and cyclists, it features line markings and stop-go signs to enhance the riding experience, complementing the skate park and encouraging safe, shared use.

05 Chipseal Carpark - A new car park with access from Milne Street, designed to formalise and consolidate entry points to the park. It will improve accessibility by providing a clear, structured arrival area with space for 10 car parks including 1 accessible parking space.

06 Multi-use Court - A versatile half-sized court designed to accommodate various activities like basketball and handball, while also serving as a flexible space for events and activations. Adjacent breakout spaces and shelters provide shade and seating around the court's edges. Centrally located for easy access during events.

07 Inclusive Double Flying Fox - Located near the half-court and active use area, the flying fox will be positioned around the park's perimeter to avoid collisions and keep it out of main movement paths, mitigating the risk of injuries.

08 Community Gathering Area - Located at the park's core, this area is near other active spaces. It features larger shelters and BBQ facilities to accommodate family events and gatherings. A three-phase power connection will be available for use during events and celebrations in the park.

09 Community Lawn - Shady open space located near playground and gathering areas, designed to accommodate community events and serve as a general kick-about space for after-school activities.

10 Picnic Shelters - Located throughout the park, to provide shaded spaces for relaxation and retreat and small gatherings, encouraging visitors to sit and enjoy the natural surroundings.

11 Sensory Garden - A nature play area designed for children to engage in unstructured play with natural elements like logs, rocks, and water features. This space offers a more immersive, imaginative experience, providing a different alternative to the adventure playground.

12 Screen Planting - Vegetation along the western boundary, to provide privacy to adjacent residences while also softening the park edge with greenery.

13 Park Mural - Opportunity to create murals through collaboration with local artists, residents, schools, and community groups, bringing people together and strengthening the sense of community in Lions Park. Fences and walls around the park offer ideal spaces for vibrant artwork, adding colour and attracting people to the park.

14 Laneway Connection - Compacted road base link to create a vehicle connection between the new car park and the existing laneway, allowing rear access to neighbouring properties.

17 New Amenities Block - Repositioned closer to key activity areas and easily accessible from the car park, the new amenities block will feature two ambulant toilets and one accessible toilet, with an open design to ensure visibility and safety within the park.

16 Adventure Playground - New playground designed to cater to a wide range of ages and abilities. Featuring climbing towers and slides to offer a more challenging adventure play experience, while elements like a water pump and sand table provide imaginative play opportunities for younger children.

17 Lions Park Sign - Relocated from its current position to the central park area, creating a welcoming entry point aligned with a potential future pedestrian connection.

18 Shaded Seating Areas - Park benches located throughout the park to provide shady areas to sit and rest.
